2. 2021 year in review for AJRU

Over the past year the Asian Jump Rope Union (AJRU) has continued to hold board meetings each month electronically, involving three new board members added to the board in late July 2021. Two major accomplishments were finally receiving NPO registration status in Hong Kong, China, and subsequently receiving official recognition by IJRU as the official Asian continental organization.

AJRU continues to post social media updates and has created an official website, which AJRU hopes to launch soon, upon acquisition of the "ajru.sport" domain. The AJRU Technical Committee continues to plan online workshops, which AJRU hopes to host as soon as the official website and e-mail addresses are up and running.

AJRU is still trying to find a way to establish a bank account in Asia, which is difficult due to various international banking regulations. As soon as that is established it will be easier for AJRU to plan events and secure sources of financial income. AJRU hopes to provide further assistance and guidance to the present 13 member Asian countries and expand that number in the coming months and years.
