

Date: 11 December 2021

Report prepared by: Luke Winstanley, President

Oceania Rope Skipping Organisation (ORSO)

### Year In Review

The Oceania region currently only has one member (Australia) although there are more than 26 Countries (14 countries eligible in their own right, and a further 12 that may be classified as Sport Countries under the IJRU Constitution).

During the year, Oceania sent letters to all countries highest sporting authorities introducing our Organisation and the IJRU International Federation. A genuine request of assistance was provided, seeking engagement of where there may be pockets of our sport being played in that Nation, with an introduction to join IJRU.

The communication generated a small amount of feedback and follow up action is being progressed in a number of locations. The list of Countries is outlined below;

Australia is progressing growth of our sport in our corner of the world, and anticipated 2022 to be a strong year with many new contacts being made in Oceania.

Regards,

*Luke Winstanley*

Luke Winstanley
